To the National Carriers' Conference Committee with respect to
The Railroad Employees National Early Retirement Major Medical Benefit Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Railroad Employees National Early Retirement Major Medical Benefit Plan (the Plan), which comprise the statements of net assets available for benefits and of plan benefit obligations as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits and of changes in plan benefit obligations for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by SunTrust Bank, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2014 and 2013, and for the year ended

December 31, 2014, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended December 31, 2014, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. These supplemental schedules are the responsibility of the Plan Administrator. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of The Railroad Employees National Early Retirement Major Medical Benefit Plan (the Plan) provides only general information. Participants should refer to the Plan's Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan was established in 1978 pursuant to collective-bargaining and currently provides health and other related benefits to eligible early retired employees of participating railroads and their beneficiaries. The Plan is administered by the National Carriers' Conference Committee and is subject to the provisions of the Railway Labor Act, as amended, and the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Benefits

The Plan benefits are provided on a self-insured basis. Health claims are administered by UnitedHealthcare pursuant to an Administrative Service Only contract. Prescription drug claims are administered by Express Scripts, pursuant to a Master Services Agreement.

Eligibility

Upon satisfying the eligibility and coverage requirements, as outlined in the Plan's Summary Plan Description, retirees of the participating railroads and their dependents are entitled to receive the benefits provided by the Plan. Extended benefit coverage provisions may also be available to retirees under certain circumstances.

Funding

The participating railroads' obligation to provide contributions to the Plan arises pursuant to the terms and conditions of the collective-bargaining agreements, Plan document and related practices. Contributions to the Plan are provided by the participating railroads on a monthly basis in the amount determined after discussions with UnitedHealthcare. The railroads fund the obligations of the Plan as they become due and payable during the year. Additionally, the Plan is required to maintain a \$1 million cash reserve in the Trust. Should the cash reserve fall below \$1 million, contributions to the Plan will be increased to fund the reserve by the end of the following calendar year.

UnitedHealthcare monitors the activity of the Trust and the Plan's maintenance of the \$1 million cash reserve. As of December 31, 2014 and 2013, the cash reserve met the required reserve.

Note 1. Description of the Plan (continued)

Tax status

The Trust established pursuant to the Plan document to hold the Plan's assets is qualified pursuant to Section 501(c)(9) of the Internal Revenue Code and, accordingly, the Trust's net investment income is exempt from income taxation. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service, and the Plan Administrator believes that the Plan, as amended, continues to qualify and to operate as designed.

Representatives of the Plan Administrator considered the Plan's tax positions relative to FASB ASC 740, Income Taxes (which includes FASB Interpretation No. 48 (FIN 48) – Accounting for Uncertainty in Income Taxes) and believes that the Plan has maintained its tax exempt status and had taken no uncertain tax positions. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to routine examination by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. Based on the three year statute of limitations that restricts the tax filing from examination by the IRS for income tax purposes, the Plan Administrator believes it is no longer subject to examinations by the IRS for this purpose for years prior to 2011.

Plan termination

In the event of termination of the Plan, the Trust's remaining assets will be used to provide for the payment of any and all obligations of the Plan. Such payments shall be for the exclusive benefit of the Plan participants and beneficiaries and to defray the administrative expenses of the Plan.

Note 2. Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Significant Accounting Policies (continued)

Valuation of investments and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Fair value of financial instruments

The Plan Administrator believes the carrying value of financial instruments, as stated in the financial statements, approximates their fair value.

Payment of benefits

Claim payments are recorded when paid by the Plan. Amounts processed by the third party administrators, but not paid by the Plan and claims incurred but not reported as of December 31st are recorded as plan benefit obligations within the accompanying statements of plan benefit obligations.

Participating railroads' contributions and contributions receivable

Each participating railroad provides a monthly contribution to the Plan as determined annually. Participating railroad contributions are recognized as revenue in the period in which the compensated service giving rise to the contribution is rendered.

Participants' COBRA contributions

Participants and beneficiaries, who experience a qualifying event, as defined by Federal COBRA guidelines, may self-pay to continue coverage in the Plan for a limited period of time. Participants' COBRA contributions are recognized when due and payable.

Formulary rebates

Formulary rebates are recorded by the Plan when earned. Formulary rebates totaling \$17,306,957 have been earned by the Plan and were netted against prescription drug claims in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2014.

Note 2. Significant Accounting Policies (continued)

Terminated and withdrawing railroads' withdrawal liability receivable

Upon termination or withdrawal from the Plan in whole or in part, a railroad is assessed a withdrawal liability, as provided for pursuant to the Plan document, which approximates the individual railroad's claim run-out liability. This run-out liability is due and payable 10 days subsequent to the railroad's receipt of a bill for such payment. As of December 31, 2014 and 2013 the outstanding amounts receivable from terminated or withdrawn railroads as it relates to the withdrawal liability were insignificant.

Allowance for doubtful accounts

The Plan utilizes the allowance method to account for uncollectible receivables. Unless otherwise noted, an allowance for doubtful accounts for the Plan's receivable balances is not considered necessary as probable uncollectible amounts have been determined by the Plan Administrator not to be significant to the financial statements.

Amounts due from participating railroads

The amounts due from participating railroads represent an unfunded commitment, pursuant to the collective-bargaining agreements, Plan document and related practices, by each participating railroad, to contribute to the Plan sufficient funds to enable the Plan to pay the benefits provided by it for that railroad's employees and their eligible dependents.

Subsequent events

The Plan has evaluated subsequent events through October 12, 2015 the date the financial statements were available to be issued.

Note 3. Investments

Investments are held by a bank administered trust fund. The following table represents the fair value of those investments as of December 31, 2014 and 2013. Investments that represent 5% or more of the Plan's net assets are separately identified.

2014

2013

Investments at estimated fair value:

Money market funds*

\$ 82,257,811

\$ 114,082,362

* Investments held as of December 31, 2014 and 2013 were in Federated Treasury Obligation MM-1 #68 FFS.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The valuation methodology used for assets measured at fair value as of December 31, 2014 and 2013 is as follows:

Money market funds

Shares of a money market portfolio are considered cash equivalents and are valued at their carrying amount due to their short-term nature.

As of December 31, 2014 and 2013, all of the Plan's investment assets have been determined by the Plan Administrator to be level 1.

Note 5. Post-Retirement Benefits

The post-retirement benefit obligation represents the total actuarial present value of those estimated future benefits that are attributed to employee service rendered to December 31st. Post-retirement benefits include future benefits expected to be paid to or for: (1) currently retired employees and (2) active employees after retirement from service with the participating railroads. Prior to an active employee's full eligibility date, the post-retirement benefit obligation is the portion of the expected post-retirement benefit obligation that is attributed to that employee's service in the industry rendered to the valuation date.

The actuarial present value of the expected post-retirement benefit obligation is determined by the Plan's consulting actuary, Towers Watson, and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of appropriate decrements) between the valuation date and the expected date of payment. The following assumptions are based on the Plan Administrator's determination that the Plan qualifies for a retiree only plan exemption under the Patient Protection and Affordable Care Act. If the Plan did not qualify for this exemption, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the post-retirement obligation.

The valuation was performed using a roll-forward methodology. The Plan Administrator has adopted a three year roll forward cycle to coincide with the triennial release of updated actuarial assumptions by the United States Railroad Retirement Board (RRB).

Accordingly, the December 31, 2014 valuation was based on a roll-forward of January 1, 2012 liabilities which used RRB valuation assumptions released in August 2012.

As part of the roll-forward process, adjustments are made, if needed to reflect population changes, plan changes and discount rate changes. Adjustments included in the December 31, 2014 valuation included an adjustment for the change in the discount rate, an adjustment for the increase in the current medical trend assumption, and an adjustment for favorable claims experience.

The cost of providing Plan benefits depends on demographic factors such as retirement, mortality, turnover, and plan participation. The United States Railroad Retirement Board performs a valuation of Railroad Retirement Benefits every three years, which includes analysis and development of current demographic assumptions. The Plan's consulting actuary relied upon this analysis as representative of the experience of the covered population under this Plan. If the actual claim experience of the Plan is more favorable than assumed, future costs will be lower. Alternatively, if the actual claim experience of the Plan is less favorable than assumed, future costs will be higher.

Note 5. Post-Retirement Benefits (continued)

The Plan participant data was not available at the level of detail that is typically used in valuations of this type. Therefore, the Plan's consulting actuary used reasonable and appropriate extrapolation techniques pursuant to Actuarial Standards of Practice (ASOP No. 23) on Data Quality to develop the data that was needed for valuation purposes. The Plan's consulting actuary does not believe the use of this data creates a material bias in the calculation.

For measurement purposes, as of and for the years ended December 31, 2014 and 2013 a 6.5% annual rate of increase in the per capita cost of covered health care benefits was assumed. Additionally, as of December 31, 2014 this rate was assumed to decrease gradually to 5% by 2020 and to remain at that level thereafter. As of December 31, 2013 this rate was assumed to decrease gradually to 5% by 2019 and to remain at that level thereafter.

The health care cost trend rate assumption has a significant effect on the amounts reported. If the assumed rates increased by one percentage point in each year, it would increase the obligation as of December 31, 2014 and 2013, by \$500,611,617 to \$4,396,593,691 and by \$430,167,884 to \$3,862,845,460, respectively.

Other significant assumptions used in the actuarial valuation are as follows:

	2014	2013
Weighted Average Discount Rate	3.85%	4.65%

Mortality Assumption

RRB Table S-12 - 30 Year Select and Ultimate Table

Disability Assumption

RRB Table S-11 – Rates vary by age and service.

Note 5. Post-Retirement Benefits (continued)

Retirement Assumption

RRB Table S-10 – Rates vary by age and service, average age is 62.

Note: The demographic assumptions shown above were developed by the United States Railroad Retirement Board (RRB), Bureau of the Actuary, for use in the December 31, 2010 valuation of Railroad Retirement Benefits. This is the most recent valuation available to the Plan's consulting actuary. The table numbers referenced above correspond to the assumption section of that valuation.

Participation Assumption

100%

Spouse Assumption

Actual data was supplied for current inactive participants. 80% male and 60% of female active participants are assumed to be married to a spouse three years younger than the participant.

COBRA Continuation

50% of eligible beneficiaries are assumed to elect COBRA coverage.

The Plan's deficiency of net assets over benefit obligations as of December 31, 2014 and 2013 related primarily to the post-retirement benefit obligation, which will be funded on an annual basis, as it becomes due and payable, by participating railroads' contributions.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the post-retirement obligation.

Note 6. Other Plan Benefit Obligations

Plan obligations as of December 31st for health claims payable and health claims incurred by participants but not reported as of that date are estimated by UnitedHealthcare. Such estimated amounts are reported in the accompanying statement of plan benefit obligations at present value. Based on the current nature of the obligation, generally within three months of year end, discounting the obligation was not necessary.

Note 6. Other Plan Benefit Obligations (continued)

Significant assumptions used in the calculation include the following:

	2014	2013
Run-out factor: Health claims	0.90	1.00
Prescription drug claims	0.50	0.50
Administrative load	7.60%	8.10%
Bank float	9.00%	11.00%

Upon termination of a Plan participant's coverage, the Plan may provide limited coverage for injuries that occurred, and sicknesses or pregnancies that commenced before or while the participant was covered by the Plan. This provision of the Plan covers benefits that were incurred during the calendar year in which the Plan participant's coverage ends, and for expenses that are incurred during the next calendar year as long as the disability is continuous. Benefits are not payable for any expenses that are covered under any other group insurance policy or group plan. Benefits are also not payable for an individual who incurs an expense on or after the date he/she becomes Medicare eligible.

The Plan Administrator is of the opinion, based on all available known facts, that the amount expected to be paid with respect to this contingent liability would not have a material effect on the financial position or results of operations of the Plan.

Note 7. Plan Benefit Changes

The maximum benefit per lifetime for covered health services received by an eligible member of the Plan, which is adjusted annually to reflect the increase in the medical cost components of the consumer price index, was increased from \$141,400 to \$145,800 as of January 1, 2015.

Note 8. Concentration of Participating Railroads

There are approximately 44 railroads participating in the Plan, of which 4 Class railroads comprised approximately 87% of the total Plan activity as of and for the years ended December 31, 2014 and 2013. This activity includes, but is not limited to, participating railroads contributions receivable as of December 31, 2014 and 2013, and participating railroads' contributions for the year ended December 31, 2014 as follows:

Note 8. Concentration of Participating Railroads (continued)

	•	Percentage of Total Plan Activity	
Railroad	2014	2013	
Α	28.7%	26.8%	
В	24.6%	24.9%	
С	17.5%	17.9%	
D	16.6%	17.6%	

Note 9. Information Certified by the Plan's Trustee and the Plan Administrator

The following investments are held by a bank administered trust fund and were certified by the Trustee, SunTrust Bank, and the Plan Administrator as complete and accurate.

	2014	2013
Money Market Fund*: Investments Accrued interest Interest income	\$ 82,257,811 664 9,618	\$ 114,082,362 916 11,381

^{*} Investments held as of December 31, 2014 and 2013 were in Federated Treasury Obligation MM-1 #68 FFS.

The investment activity reported on the schedule of assets (held at end of year) and schedule of reportable transactions was also certified by the Trustee, SunTrust Bank, and the Plan Administrator as complete and accurate.

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying 2014 and 2013 financial statements to the Form 5500:

Note 10. Reconciliation of Financial Statements to Form 5500 (continued)

	2014	2013
Net assets available for benefits as reported within the financial statements	\$ 112,063,037	\$ 139,529,986
Benefit obligations currently payable	(16,712,696)	(_15,645,612)
Net assets available for benefits as reported within the Form 5500	<u>\$ 95,350,341</u>	<u>\$ 123,884,374</u>

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the year ended December 31, 2014:

Benefits paid to or for participants as reported within	
the financial statements	\$ 227,812,514
Add: Amounts payable at end of year	16,712,696
Less: Amounts payable at beginning of year	(15,645,612)
Benefits paid to or for participants as reported within the Form 5500	<u>\$ 228,879,598</u>
	<u> </u>

Amounts currently payable to or for participants, dependents, and beneficiaries are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31st but not yet paid as of that date and for incurred but not reported benefit claims as of December 31st.

Note 11. Party in Interest Transactions

The Plan paid administrative fees to service providers during the year that are considered party in interest transactions. This includes management fees paid to SunTrust, the trustee of the Plan, for certain Plan assets invested in money market funds. These transactions are exempt from the prohibited transaction rules of ERISA.

Note 12. Risks and Uncertainties

The Plan invests in money market funds with SunTrust. These investments are exposed to credit risk. Due to the level of risk associated with these investments given the current economic condition and uncertainty in the market place, it is at least reasonably possible that changes in the value of these investments may occur in the near term and that such changes could materially affect the amounts reported in the

Note 12. Risks and Uncertainties (continued)

statements of net assets available for benefits and changes in net assets available for benefits.

The Plan maintains its cash balances in bank deposit accounts, which, at times, may exceed federally insured limits. The Plan has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk as to cash.

The total obligations other than post-retirement obligations (health claims payable and claims incurred but not reported), as calculated and reported to the Plan by UnitedHealthcare, and post-retirement benefits, as calculated and reported to the Plan by the Plan's consulting actuary, are based on certain assumptions pertaining to claim run-out factors, administrative load, bank float, participant data, interest rates, health care inflation, average retirement age and other employee demographics, all of which are subject to change or may not be reflective of actual experience. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 13. Transitional Reinsurance Fee

The Affordable Care Act (ACA) requires self-funded group health plans to fund a Transitional Reinsurance Program in place from 2014 to 2016. The total 2014 fee to be paid by the Plan is \$1,910,538. This amount has been included in the accounts payable and accrued expenses balance reported within the accompanying statement of net assets available for benefits and as administrative expenses within the accompanying statement of changes in net assets available for benefits. As established by the ACA, the first payment for the 2014 reinsurance fee was due on January 15, 2015 and the second payment is due by November 15, 2015. The Plan paid \$1,592,115 on January 12, 2015 and will pay the remainder of the balance on November 15, 2015.
